Furniture chain picks Clematis

If **CityPlace** can add more home furnishings retailers, why not **Clematis Street**?

Design Within Reach, a 4-year-old San Francisco-based chain, is opening one of its first locations on the East Coast by taking a 6,600-square-foot storefront on Clematis in West Palm Beach. The company is expected to move to the former **Gap** space by the summer.

"Their reputation is very impressive in terms of their management team, financial depth and growth," said **Jonathan Satter**, the real estate broker who completed the deal.

Satter, who represents property owner **Transwestern Investment Co.**, said he's not necessarily trying to bring more home furnishings stores to Clematis, although he does think they would help with filling the street's live/work lofts.
